

## **MARSOF MASTER ASSAULTER COURSE (MMAC)**

### **INDIVIDUAL EQUIPMENT LIST**

1. Personally owned weapons and ammunition are not authorized.
2. Students who show up without the necessary equipment on the first day of training will not participate.
3. Non ANSI certified sunglasses are not authorized for use during this course.
4. The below listed gear will be used for the duration of MMAC. Additional gear for field use will be evaluated on a case by case basis.
5. Appropriate inclement weather gear can be worn/used; weather permitting.
6. Some field gear/uniforms used during field operations may not be appropriate for garrison classroom activities. Appropriate USMC uniform and civilian attire will be worn when not in a field environment.
7. During this course, the student will be performing duties that he has not performed before and using equipment that he may not have used previously. The Crye Adaptive Vest System (AVS) should be brought complete to the course so the student has the gear available to reconfigure and make adjustments as needed.
8. Students should arrive with their vest setup to facilitate carry of mechanical tools (sledge, halligan) and shotgun.
9. Rifles, Eotechs, gunlights, AN/PVS-15s, suppressors, and MBITRS will be provided by MRTC for the students from units outside of the Camp Lejeune area. These students are encouraged to bring their issued weapons suite but are not required to do so.
10. Students must be prepared to stand overnight duties as the schedule requires. This may require additional equipment to deal with the elements.

Item	Qty	Notes
